I object to the percentage of settlement that the Class Counsel is requesting. I feel if the Class Counsel is going to be reimbursed for all actual & anticipated litigation costs and Administrative expenses associated with the settlement, their Award for Attorneys' Fees should be no more than 10% of the 12.5 million proposed settlement fund. I object to Lawyers getting rich with Class Action Lawsuits where the Awards should go to the members not the lawyers.

The lawyers are slated to get over 4 million

while the members will average \$120 each.
